MEDIA WATCH

Prothom Alo Youth Survey:

A total of 80.6 percent of them say they watch TV as recreation in their spare time. The second favourite way to spend their time is 'adda', or hanging out with friends. But there is a wide gap between the two, a 50.4 percent difference. According to the survey, the third most popular recreation is to spend time with family, 43 percent. After these, there are social media and sleep. It is not a negligible number either, with 41 percent enjoying their time in this manner. Then 31 percent of the youth spend time reading newspapers, 30 percent reading books, 24 percent in sports and 24 percent watching sports on TV. And 21 percent of the youth spend time on the internet. Source: <http://en.prothom-alo.com/bangladesh/news/154045/Four-out-of-five-watch-TV-as-recreation>

HEALTH TIPS

Some precautions for Chikungunya:

- Spray aerosols in bedrooms including the closets, bathrooms and kitchens for a few seconds and close the room for 15-20 minutes. The timing of the spray should coincide with the peak biting time of the mosquito, e.g. early morning or late afternoon. Alternatively, mosquito coils, electric mats, vapourizers, etc. can be used.
- Use commercially available insect repellents during the daytime on exposed parts of the body.
- Have infants and others sleep under bednets during the daytime.
- Any member of the household suspected of chikungunya should be made to rest under bednets during the viremic phase which is usually the first four days of illness.
- If possible, install wire mesh/nets on doors and windows.

QURBANI TIPS

- Get a professional butcher.
- Clean the environment after the slaughter with disinfectant.
- Safely dispose off the waste resulting from slaughtering by putting it in disposable plastic bags and discard it at the designated place by the municipality.
